## Current Status/Update

1. Little Dance in Chaska Powwow – discussion of how limited the potential funding for this event could be in 2011, given the many budgeted capital improvements throughout the Association. Need for a Closed Work Session discussion of the full Board was confirmed.
2. Storage Barn driveway apron – discussion leading to decision to give Nancy Teske at the Karen House the “go ahead” to approve spending an additional \$2,500 for this portion of the structure.
3. Audubon Road lawn maintenance – discussion about the request from the Autumn Woods neighborhoods for Jonathan to take over responsibility for maintaining the area as described: west side of Audubon, running south from Butternut to Pioneer Trail, curving and continuing westward until the first asphalt paved Jonathan trail outlet on the north side of Pioneer Trail. Discussed how the City does not maintain this parcel to the standards of Jonathan, and that this deficiency leads to erroneous negative reflection upon Jonathan. Precedent is being followed rather than created; Jonathan maintains other City-owned parcels throughout the Jonathan area for the same “perception-related” reasons. Need for a full Board discussion and approval was confirmed.
