Current Status/Update

Plans are still forming with regard to a specific date, location and time(s) for Round 2 of filmed interviews for the Jonathan documentary film. Most likely choice of time: late September or early-to-mid October.

Maria Awes has completed and submitted a grant request to the Jerome Foundation for the purpose of financing the creation of a documentary film.

*****Mary Booth (Jonathan Heritage Committee member & Carver County Historical Society member) discussed with Nate Bostrom the idea of Jonathan giving the scale model display once used at the original Jonathan sales office (and now is in storage in the Karen House attic) to the Carver County Museum. Nate followed up with Tracy Swanson of the Chaska History Center; Tracy said that she has no room in her facility and thought it a good idea to give the scale model to Carver County. This transfer would be a permanent ownership change in status for this item. NOTE: this item is currently too large for display use in the Karen House or Chaska History Center. It is also in bad condition and could benefit from the permanent care/talents of professional curators. Mary Booth, Tracy Swanson, and Nate Bostrom are all in favor of this permanent ownership transfer.**
