

**POLICY RESOLUTION # 22 – Jonathan Association Board of Directors**

**DATE: July 12, 2016**

**RE: Aerator Installation In Storm Water Collection Ponds**

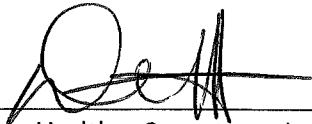

While acknowledging that:

1. The Jonathan Association has storm water collection ponds on Jonathan property; and,
2. Storm water collection ponds are not designed to be landscaping features; and,
3. Storm water collection ponds are designed to protect lakes and rivers from pollution; and,
4. The Jonathan Association had previously purchased and installed aerators in storm water collection ponds in both Autumn Woods and Millpond neighborhoods; and,
5. The Jonathan Association published board research on March 17, 2014; and,

In addition to reaffirming that:

6. To help ensure that storm water collection ponds are able to work as designed, the Jonathan Association will not aerate these ponds; and,
7. Determination of the pond being a storm water collection pond will be at the discretion of the Jonathan Association;

The Jonathan Association Board of Directors resolves on this day (07-12-2016) to no longer install aerators in any storm water collection pond.

Denise Hedtke, Secretary, Jonathan Association Board
